# Xtrac BIT DESIGN

## Tapered Body Retractable Bit

Designed to improve top-hammer drill and blast operations. The Xtrac retrace bit increases overall drilling productivity by incorporating enhancements in the bit body design and improvements in the configuration of flushing geometry. This promotes straighter holes, faster penetration rates and longer bit life.

Available in standard "T" threads and the new "XT" thread connections of the Vector Rod System

Tapered retrace body designed to improve flushing geometry and increase performance

Features multiple flat spline grooves with extended cutting edges for smoother retraction of the bit

Available in various face designs and button configurations

### AVAILABLE WITH THE FOLLOWING CARBIDE PROFILES

CONICAL

SEMI BALLISTIC

CROWN POINT

HEMISPHERICAL

MULTIPOINT

Rev. 9-25-23
