Center Rock Inc. offers a complete line of down-the-hole drills and bits designed to suit any rock drilling application. Our hammers provide optimal performance

Bit Brokers International Hammer Bits

Bit Brokers International has a vast new/surplus stock of IR360 hammer bits in the 6-, 6½- and 6¼-inch sizes. While supplies last, you can get 10 new/surplus hammer bits and a new IR360 hammer for \$7,000! Or, if you already have an IR360 hammer, you can

in wet or dry conditions and our bits provide the best value with a full range of face and head designs, button insert configurations and shank styles suited to drill in any geology. Also available are specialty products such as under-reamer systems, hole openers, canister drills and jobsite support accessories. www.centerrock.com

Dahl Corporation Large-Diameter Rods with Hexagonal Joints

For profitable large-diameter drilling, achieve faster penetration with shrouded rod with hex joints or screw rod with hex joints, which enable you to remove soil and/or rock cuttings faster, and connect and disconnect the joints easily. www.jthammer.com

Drill King International XT X-treme Drilling Tools

Drill King International is an ISO 9001:2008-certified manufacturer of XT X-treme Drilling Tools. Our range of DTH hammers is available from 2 to 30 inches in diameter. Our flexibility and customization, at a reasonable cost and short lead times, mean more profits to you. Hammer bits are available from 2¼ to 42 inches in diameter. We also offer casing advance systems, hole openers, tricones, drag bits, rock drill oil, PDC bits, shock subs and stabilizers. www.drillking.net

New Rock Bits Roller Rock Bits

The company NRB, New Rock Bits s.r.o., produces roller rock bits with steel teeth and tungsten carbide inserts for water drilling, micropiling, construction foundation, horizontal directional drilling, environmental and other drilling work with air cleaning or fluid circulation. We offer

unique, customized designs for any special drilling requirements. We have a certified quality management system in accordance with the standard ISO 9001 to our client benefits. www.nrbbits.com

Numa DTH Rock Drilling Hammers and Bits

Numa offers one of the largest ranges of DTH rock drilling hammers and bits available in the industry today. The company boasts over 110 DTH products for

drilling holes 3½ to 48 inches in all types of conditions, applications and industries. All our products provide the right combination of speed and life to excel against hard, unconsolidated, abrasive and just plain nasty conditions. Contact us today to learn more about the world's leading drilling technology. www.numahammers.com

Rockmore International ROK 550T

Rockmore International introduces the second model in the new T-Series DTH hammer line — the ROK 550T. The new T-Series design hammers utilize drill bits with standard shank connections without the plastic blow tubes/foot valves. The ROK 550T is a 5-inch class model and a "tubeless" hammer that accepts the industry standard bit shank model QL50, but with the blow tube/foot valve removed. www.rockmore-int.com
